

Product Sheet - ISIP

ISIP – protecting your investment in PBXs and unlocking access to the many well proven benefits of SIP

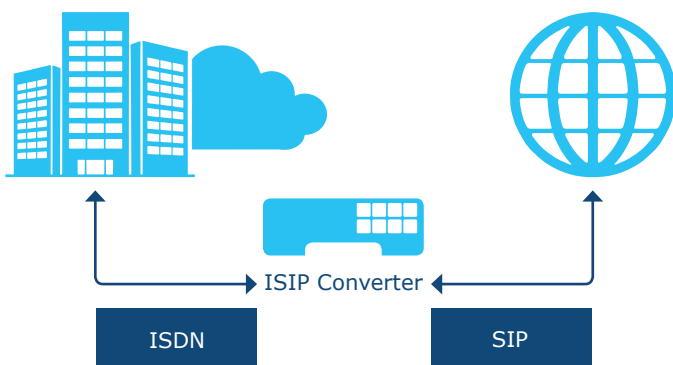

ISIP – ISDN to SIP Converters for Legacy PBXs

ISIP is a range of ISDN to SIP converters which allows you to keep your current PBX, whilst providing instant access to all the benefits of SIP.

ISIP is simple to deploy – just un-plug the ISDN cables from the BT service, plug them into ISIP, connect your new SIP service and away you go.

ISIP is cost-effective and available in seven different Basic Rate/ISDN2 & Primary Rate/ISDN30 variants – just choose the one that matches your current ISDN trunk capacity.

iCS Communications has a wealth of experience at guiding you through the process and can assist with your SIP requirements.

SIP trunks are the modern alternative to ISDN. Compared to ISDN they allow you to;

- Save money on call costs and line rental
- Make your business appear local in Cities & Countries where you have no office
- Rationalise your voice and data lines
- Deliver Business Continuity
- Better protect your business against Toll Fraud

There are still around 2 million ISDN trunks in everyday use across the UK. If you're still using them in your business it's probably because;

- Your existing PBX can't support SIP Trunks
- It's too costly to add SIP Trunk support to your existing PBX
- Your existing PBX does everything you need and you want to maximise your investment for as long as possible

About iCS Communications

iCS Communications is an independent supplier of business telecoms, data and energy to UK businesses and schools. With more than two decades' experience, we provide you with value for money by offering the essential services you need to operate efficiently.

Company Overview

iCS is an independent supplier of business telecoms, data and energy to UK businesses and schools. With more than two decades' experience, we provide you with value for money by offering the essential services you need to operate efficiently.

We understand how challenging it can be to navigate your way through the ever-changing communications market, and we're always on hand to talk about what matters to you and your business.

With clear, impartial advice and a reliable, personal service, we do everything we can to make your life easier. Our products and services are designed to help your business be more efficient and our customers enjoy market leading solutions, typically with reduced overall spend and excellent customer support.

We also want to make sure you get the best deal. So with no obligation we'll review any aspect of your telecoms and give you a tailored recommendation, on how to improve your communications infrastructure, and advise where you can reduce costs.

Call today and speak to one our team on **0800 9 77 88 99** or email sales@icscomms.co.uk
